

Great outlook

for the automotive industry

MCL Sentinel - a competitively priced
business email system in the blink of an eye

MCL's experience in the development and deployment of hosted automotive applications gives us a unique advantage over our competitors. It has been instrumental in bringing Sentinel to you – an affordable, dedicated email solution for the industry which can be set up without your dealership having to invest in expensive equipment or technical expertise.

Runs like a dream!

With a proven track record in providing dealer IT systems we understand how the smooth running and performance of your business is dependant on critical applications like email. MCL's email solution, Sentinel, has been devised with this in mind delivering a host of features which provides you with a reliable, easy to use email system that also gives you peace of mind:

Unique to Sentinel!

- UK Dealer Contacts
 - Useful Supplier Contacts
 - Manufacturer Contacts
 - Automotive Event Calendar
- Tailored to your needs – saving time and effort

Same functionality for 5 to 5,000	Ideal for any sized dealership or company from small single site to large multiple sites. Standard 150MB mailboxes.
Based on industry leading Microsoft® Exchange Server 2003	Reliability and ease of use through Microsoft® Outlook Web Access - the most popular email interface.
Easy to set up	No IT expertise required at your dealership.
Built in anti-virus and anti-spam filters with 'always on' protection	Protection from email borne viruses. Emails are cleaned before they are delivered. Unwanted spam reduced by approximately 95%.
Hosting at MCL's secure computer centre with overnight data back up	Constant monitoring ensures the system will be available when you need it. Email archiving to help avoid potential compliance and legal issues.
Friendly Help Desk staff	A professional team with industry experience in customer service.
Calendar facility	Shared appointments and calendars keep the communication between your teams flowing.
Public folders	Enables efficient communication, collaboration and planning between colleagues.
Remote and mobile access	Ideal for field based employees. Send and receive vital information from wherever you are. Access your email via a variety of mobile interfaces.

Move over to Cruise Control!

MCL Sentinel provides you with an easy 'fast track' means of using the market leading email without having to invest in expensive equipment or technical expertise.

You can save money even if you have an existing email system!

-  Ideal for, and affordable by, any sized dealership or company from small single site to large multiple site operations.
-  Reliable and easy to use.
-  Built in anti-virus and anti-spam filters for peace of mind.
-  Remote access via Microsoft® Internet Explorer.

Save
30% - 50%
on average, compared to a typical
Microsoft® Exchange 5.5 solution
